

APPEAL NO. 032596
FILED NOVEMBER 20, 2003

This appeal arises pursuant to the Texas Workers' Compensation Act, TEX. LAB. CODE ANN. § 401.001 *et seq.* (1989 Act). A contested case hearing was held on September 11, 2003. The hearing officer determined that the appellant's (claimant) impairment rating (IR) is 10%, as certified by the designated doctor appointed by the Texas Workers' Compensation Commission (Commission). The claimant appeals on sufficiency of the evidence grounds. No response was filed.

DECISION

Affirmed.

The hearing officer did not err in determining that the claimant's IR is 10% as certified by the Commission-appointed designated doctor. The claimant asserts that the designated doctor's certification is contrary to the great weight of the other medical evidence and requests adoption of his treating doctor's certification, which he believes better evaluates his condition of post-traumatic stress disorder. Whether the great weight of the other medical evidence was contrary to the opinion of the designated doctor is basically a factual determination. Texas Workers' Compensation Commission Appeal No. 93459, decided July 15, 1993. We view the report of the claimant's treating doctor as representing a difference in medical opinion, which does not rise to the level of the great weight of medical evidence contrary to the designated doctor's report. The hearing officer's IR determination is not so against the great weight and preponderance of the evidence as to be clearly wrong or manifestly unjust. Cain v. Bain, 709 S.W.2d 175 (Tex. 1986).

The decision and order of the hearing officer are affirmed.

The true corporate name of the insurance carrier is **(a self-insured governmental entity)** and the name and address of its registered agent for service of process is
